

AN IMPORTANT MEASURE.

Senator LaGrave has introduced a bill to provide for the supervision and use of the waters of the State. It divides the State into four water divisions. The first is to comprise all lands within the State drained by the Truckee and its tributaries. The second to comprise all lands drained by the Carson and its tributaries, including the small streams draining into the Carson sink, the Walker river and its tributaries, and all lands drained by streams in Esmeralda county. The third to comprise all lands drained by the Humboldt and its tributaries. Quinn river and its tributaries, the tributaries of the Snake river, and all lands drained by other streams which are wholly or partly within the counties of Elko, Eureka, Lander, Humboldt and Churchill, excepting such as are included in divisions one and two. The fourth to comprise all lands drained by streams which are wholly or partly within the counties of Lincoln, Nye and White Pine, excepting those included in divisions two and three.

It provides for a State Engineer to be appointed by the Governor, at a salary of \$3,000 a year, but no person shall be appointed who has not such theoretical knowledge and practical experience and skill as shall fit him for the position.

There shall be one Superintendent for each water division, who shall be appointed by the Governor. The Superintendent shall, in the distribution of water, be governed by the Act, but shall have authority to make such other regulations to secure the equal and fair distribution of water, in accordance with the rights of priority of appropriation, as may, in his judgement be needed. Any person, ditch owner or stockholder, in a ditch company who may deem himself injured, shall have the right of appeal to the State Engineer.

The bill creates a Board of Control composed of the State Engineer, who shall be President of the Board, and the superintendents of the four water divisions, one of whom shall be Secretary. It is made the duty of the Board at its first meeting, to make proper arrangement for the determination of the priorities of right to the use of public waters of the State, which determination shall begin on the streams most used for irrigation and be continued until all claims now on record shall have been determined under the method prescribed by the Act. Any person or persons feeling aggrieved by the determination of the Board of Control may appeal to the District Court.

Within thirty days after the passage of the Act it shall be the duty of the County Recorder in each of the counties of the State to prepare a full and complete transcript of the claims to appropriations of water now on record in their respective offices, and transmit the same to the State Engineer, for which service the Recorder shall be paid by the county twenty cents per folio. The State Engineer shall classify and arrange the claims by placing those of a stream and its tributaries together. Every person or association intending to appropriate any of the public waters, or the enlargement or extension of any distributing works, shall make application to the President of the Board of Control for a permit to make such appropriation.

The Board of Control shall divide the State into water sections to be so constituted as to secure the best protection to the claimants for water, and for each water section there shall be appointed a commissioner who shall be a resident of the section, and whose duty it shall be to divide the water in the natural streams of his section, among the several ditches taken therefrom according to the prior rights of each, when called upon by two or more owners or managers of ditches to do so.

All cases relating to or affecting priorities of right to the use of water for beneficial purposes, in any of the water sections of the State, now pending in any of the District Courts of the State, except such cases as may have been by order of such Courts, referred to the Board of Control, may remain in said courts, and such Courts shall proceed with the adjudication thereof in accordance with the laws in force at the time of the inception of such cases; provided, that the Court may, in its discretion, on the application of the parties interested, transfer any such case for

determination to the Board of Control.

The bill is said to be modeled after the Wyoming Water Law.

Capitol Trotting Club of Nevada.

For the purpose of organizing the Capitol Trotting Club of Nevada, a meeting will be held at the Brigg's Hotel, February 4, 1893, at 7 o'clock p. m.

All interested in the formation of this club are requested to be present.
